**SUBMISSION OF POWER OF ATTORNEY AND  
CHANGE OF CORRESPONDENCE ADDRESS**

Sir:

In the above-identified application, a Petition to Revive this application was granted on May 9, 2005. However, in the Decision on Petition it was noted that there was no indication that Petitioner herein was ever empowered to prosecute the instant application.

Submitted herewith is a power of attorney to the law firm of Ostrolenk, Faber, Gerb & Soffen from Construction Technology, Inc., the assignee of the above-identified application, as recorded at Reel/Frame 015278/0304 recorded October 21, 2004. A power of attorney had been previously submitted from Richard Levine to Ostrolenk, Faber, Gerb & Soffen. However, a review of the assignment records on file with the Patent Office, copy attached, reveals that the assignment from the trustee in bankruptcy (Sidney K. Swinson) is to Construction Technology, Inc. Mr. Richard W. Levine is the president of Construction Technology, Inc. The assignment, copy attached, including all supporting papers, shows that the

assignee is Construction Technology, Inc. Accordingly, submitted herewith is a new power of attorney from Construction Technology, Inc. to Ostrolenk, Faber, Gerb & Soffen.

Please send all further correspondence to the address indicated in the power of attorney, that is:

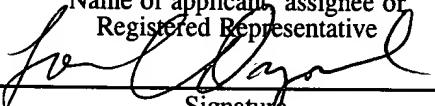

Ostrolenk, Faber, Gerb & Soffen LLP

**SETTLEMENT AGREEMENT ON CONSTRUCTION TECHNOLOGY, INC.'S  
COMPLAINT FOR DECLARATORY RELIEF, PERMANENT INJUNCTION, AN  
ACCOUNTING, INDEMNITY AND DENIAL OF DISCHARGE**

This Settlement Agreement ("Agreement") is entered into between Construction Technology, Inc.; Roy M. Milner, individually and d/b/a Blue Diamond Technologies; Sandra J. Milner; The Milmoore Corporation (collectively, "the Milner Defendants"); and Sidney K. Swinson, successor trustee of the bankruptcy estate of Roy M. Milner II and Sandra J. Milner.

**WITNESSETH:**

WHEREAS, the Debtors filed their Voluntary Chapter 7 Bankruptcy Petition on September 3, 2002. Joseph Q. Adams was appointed as the Interim Trustee. The § 341 First Meeting of Creditors was conducted on October 15, 2002.

WHEREAS, Blue Diamond Technologies ("Blue Diamond") is a sole proprietorship owned and controlled by Roy Matthew Milner, II ("Milner"). Blue Diamond conducts business in the Eastern District of Oklahoma.

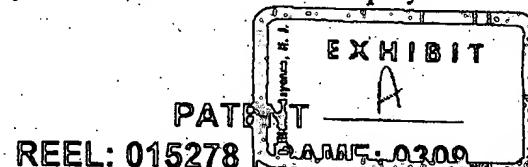

WHEREAS, The MilMoore Corporation conducts business in the Eastern District of Oklahoma. The Debtors own approximately Eighty Percent (80%) of The MilMoore stock.

WHEREAS, Sidney K. Swinson is the Successor Trustee to Joseph Q. Adams, and is the duly appointed and authorized Chapter 7 Trustee for the Milner bankruptcy estate (hereinafter the "Trustee"). The Trustee was named in this case of action solely in his capacity as the Trustee for the Milner bankruptcy estate for declaratory relief only.

WHEREAS, pre-petition, CTI and Plasma Automation, Inc. ("PAI") filed a Complaint against Milner with the United States District Court for the Southern District of New York.

WHEREAS, on December 16, 2002, Construction Technology, Inc. ("CTI") filed with this Court its Complaint against the Debtors, Roy M. Milner d/b/a Blue Diamond Technologies, The MilMoore Corporation and Joseph Q. Adams, in his capacity as Trustee for the Bankruptcy

(341055:)

Estate of the Debtors seeking Declaratory Relief, Permanent Injunction, an Accounting, Indemnity and Denial of Discharge (the "Complaint"). The Complaint involves the bankruptcy estate to the extent CTI requested a determination of the estate's interest in the IntelliCAD Assets.

WHEREAS, Milner executed an Employment and Confidential Information Agreement ("Employment Agreement") with CTI, and IntelliCAD Computers, LLC (successor to IntelliCAD Computers, Inc.) on March 3, 1998. IntelliCAD Computers, LLC was acquired by CTI, which granted PAI a license to market IntelliCAD. CTI is IntelliCAD's successor in interest, subject to the license agreement with PAI. The Employment Agreement was entered into as part of an overall settlement agreement of a patent infringement lawsuit brought by CTI against IntelliCAD. Under the terms of the Employment Agreement, IntelliCAD Computers, LLC transferred to CTI certain intellectual and proprietary property rights and proprietary assets defined in the settlement agreement as the IntelliCAD Intellectual and Proprietary Assets, which, in part, consisted of certain computer programs, including CAD programs which had been developed for IntelliCAD Computers, LLC.

WHEREAS, the Employment Agreement identified Milner as an integral part of IntelliCAD and that he would continue as an employee of IntelliCAD, now managed by PAI under license by CTI, developing computer programs, improvements, enhancements and updates for previously developed IntelliCAD computer programs.

WHEREAS, under paragraph 2.4 of the Employment Agreement, "Milner acknowledges that IntelliCAD has conveyed all right, title and interest in and to the IntelliCAD intellectual and proprietary assets to CTI and that CTI is the sole owner of said assets. Milner further acknowledges that IntelliCAD is remaining in the business of developing and selling CAD systems by virtue of the license agreements between CTI and IntelliCAD pursuant to the

settlement agreement and that without said license agreements, InteliCAD cannot remain in the business of developing and selling CAD systems."

WHEREAS, Milner expressly represented in the Employment Agreement that "Milner makes no claim to any aspect of the intellectual and proprietary assets and agrees that he will make no claims to any future developments, improvements, enhancements and upgrades to the InteliCAD system and to the InteliCAD intellectual and proprietary assets."

WHEREAS, Milner was to continue as an employee of CTI, InteliCAD or PAI for a period of four (4) years after the execution of the Employment Agreement.

WHEREAS, paragraph 3.2 of the Employment Agreement provides that "Milner agrees that he will keep all information concerning the InteliCAD intellectual and proprietary assets and all existing and future inventions, improvements, enhancements, upgrades and further developments thereto in strict confidence and not publish or disseminate any such information except with the prior written consent of an authorized representative of CTI. "Additionally, paragraph 3.2 provided that "Milner agrees to make no use of any such information except such use as required for performance of his duties for InteliCAD."

WHEREAS, additionally, paragraph 3.5 of the Employment Agreement provided that "Milner agrees to disclose and assign promptly to InteliCAD, for the benefit of CTI, and does hereby assign his entire right, title and interest in and to all inventions made or conceived by him on behalf of InteliCAD whether made solely by him or jointly with others, from time entering into InteliCAD's employee until he leaves, which are related to the business, work or area of research of InteliCAD or companies which InteliCAD owns or which result from or are suggested by any work he may do on behalf of InteliCAD. Milner agrees that his obligation

shall also relate to any inventions made by him for InteliCAD during his prior employment by InteliCAD before entering into this Agreement."

WHEREAS, the Employment Agreement specified that any of Milner's work product during the course of his employment with InteliCAD, which was through May 7, 2002, belongs to CTI. Paragraph 3.6 states in part "... Milner agrees that any works of authorship made pursuant to his employment by InteliCAD are made as a work made for hire. Milner further agrees to execute all documents and do all acts necessary to vest in InteliCAD, for the benefit of CTI, all rights, including copyrights in such works of authorship."

WHEREAS, Milner's work on the metric conversion program, as it existed as of the effective date of the Employment Agreement, for MilMoore Corporation was specifically excluded from the broad assignment of rights by Milner to CTI in Employment Agreement paragraph 3.5 because it was not a CAD related program. However, any and all developments made by Milner after the Employment Agreement, whether for MilMoore, Blue Diamond Technologies or anyone else, during the course of his employment at InteliCAD, became vested in InteliCAD for the benefit of CTI pursuant to Employment Agreement paragraph 3.6.

WHEREAS, in the event of Milner's employment termination by InteliCAD, the Employment Agreement provided that "Milner agrees to deliver to InteliCAD, for the benefit of CTI, all materials and all programs created for InteliCAD...which are in his possession, all of which materials and other things shall be and remain the sole property of CTI."

WHEREAS, the Employment Agreement contains a non-competition provision at paragraph 3.8 which states that if Milner's employment is terminated for any reason then,

- a. "that for a period of three (3) years after termination of his employment:
  - i. he will not compete with InteliCAD, CTI or CTI's licensees by providing competing CAD or

construction industry software development services to others directly, as a consultant, or as an employee by selling CAD systems in competition with the systems sold by IntelliCAD; and

ii. he will not solicit customers of IntelliCAD."

WHEREAS, it is further provided in paragraph 3.10 of the Employment Agreement that Milner "...will not use the IntelliCAD intellectual and proprietary assets and any other IntelliCAD proprietary and confidential information including all further developments, enhancements, improvements and upgrades to the IntelliCAD system for any purpose except for the benefit of IntelliCAD and CTI, both during the term of this Agreement and after termination of this Agreement. Milner agrees he will not use any IntelliCAD confidential or proprietary information to benefit himself personally to the detriment of IntelliCAD or CTI or to benefit any third party during the term of this Agreement and after termination of this Agreement."

WHEREAS, CTI alleged that Milner's employment was terminated for cause on or around May 7, 2002, due to a material breach of the Employment Agreement. CTI also alleged that Milner materially breached the confidentiality and non-competition provisions of the Employment Agreement after his termination by:

- a. failing to turn over all materials and programs which make up the IntelliCAD assets;
- b. using the IntelliCAD assets for his own personal benefit;
- c. directly competing, or attempting to compete with CTI and IntelliCAD;
- d. actively soliciting customers of IntelliCAD including specifically asking customers of IntelliCAD to contribute to a "defense fund" to raise money for his anticipated legal costs; and
- e. directly offering to IntelliCAD users' systems support at the same price charged by IntelliCAD in direct competition with IntelliCAD.

**WHEREAS**, CTI alleged that Milner failed or refused to surrender to CTI all of the IntelCAD assets, including but not limited to:

- a. the Windows version of HVAC CAD;
- b. the Piping CAD Program Addition;
- c. the improved collision program being marketed and sold by Milner under the name "Blue Diamond Technologies;"
- d. Milner's patent application rights as submitted under his name in 2001.

**WHEREAS**, the Debtors own Eighty Percent (80%) of the stock of The MilMoore Corporation. The MilMoore Corporation is an operating business and can be found at the web address of <http://www.oknet.com/geometry>. The address for purchasing products is the Debtors' personal address. CTI alleged that the products advertised for sale by The MilMoore Corporation are CAD related and, to that extent, constitute property of CTI.

**WHEREAS**, CTI had also alleged that the products being marketed or sold by Blue Diamond Technologies are CAD related or otherwise covered by the Milner Employment Agreement and are therefore CTI property.

**NOW, THEREFORE**, in consideration of the mutual covenants contained herein, the parties agree as follows:

1. The Trustee shall file a Motion to Approve Settlement pursuant to Rule 9019, Fed. R. Bank. P. and upon the entry of a Final Order granting the Motion, the parties shall be bound to the terms of this Agreement.
2. The Defendants consent to the entry of an Order in the Adversary Proceeding determining that CTI owns all of the IntelCAD intellectual and proprietary property rights and assets, including but not limited to:
  - a. the Windows version of HVAC CAD;

- b. the Piping CAD Program Addition;
- c. the improved collision program being marketed and sold by Milner under the name "Blue Diamond Technologies;"
- d. the CAD related products claimed to be owned or otherwise marketed by The MilMoore Corporation;
- e. Milner's patent application rights as submitted by him under his name in 2001; and
- f. *all other developments, improvements, enhancements and upgrades to the IntelliCAD system which may have been made by Milner prior to his employment termination on May 7, 2002. (the IntelliCAD Assets)*

3. CTI will pay the Trustee for the benefit of the Estate the sum of Five Thousand Dollars and No/100 (\$5,000.00) in consideration for all of the Estate's interest, if any, in any and all of the IntelliCAD Assets, including those assets being marketed or sold by Milner, Blue Diamond Technologies and The MilMoore Corporation to CTI, pursuant to 11 U.S.C. § 363, free and clear of all liens, claims, encumbrances and other interests.

4. The Milner Defendants affirmatively represent and state under penalty of perjury that they are not in possession of any IntelliCAD or IntelliCAD related business CAD Assets identified in Paragraph 23 herein other than what will be surrendered to the Trustee for transfer to CTI. They further affirmatively represent and state under penalty of perjury that no IntelliCAD or IntelliCAD related business CAD Assets, as identified in Paragraph 1 herein, were sold by them. Milner's patent application referred to in Paragraph 1 shall be assigned to CTI. Milner agrees that his employment with CTI terminated on May 7, 2002, for all purposes under the Employment Agreement.

5. By virtue of the sale of the IntelliCAD Assets to CTI herein, and the declaration of ownership of the IntelliCAD Assets in favor of CTI, the Milner Defendants agree that for all purposes all right, title and interest in and to the IntelliCAD Assets are vested in CTI. This

Agreement and the Order approving the Compromise shall be binding and enforceable by injunctive relief as to Milner Defendants, their heirs, successors, assigns or employers.

6. The Debtors' discharge will be entered immediately after the Order approving the Compromise becomes a Final Order.

7. The Bankruptcy Court shall retain jurisdiction to hear and determine any disputes which might arise between Plaintiff and the Defendants and their heirs, successors, assigns or employers under this Agreement and the Order approving the Compromise.

8. In the event that it is determined that the Milner Defendants have, or continue to be in possession or control of any of the Assets identified in Paragraph 1 herein, or if any Milner Defendant has sold or otherwise transferred in any form or fashion any of the Assets in Paragraph 1, or if any Defendant has made any representation of fact that is false or misleading with respect to any of the matters contained in this Agreement, the Motion to Approve Settlement, or the Order, then it is agreed that the same shall be just and sufficient cause to reopen this bankruptcy proceeding and to except or deny the Debtors' discharge pursuant to 11 U.S.C. §§ 523 or 727.

9. This Agreement and the Order approving the Compromise shall constitute an ongoing and continuing restraint against the Milner Defendants from using, marketing, selling, transferring or otherwise profiting from any IntelliCAD or IntelliCAD related business CAD Asset as identified in Paragraph 1 herein, in any way. It is understood and agreed that any violation of this restraint shall constitute a violation of this Agreement and the Order approving the Compromise.

10. Upon final approval of this Agreement by the Bankruptcy Court, CTI shall waive its claim against the Milner Bankruptcy Estate.
